ABOUT ME

I'm 20 years old, I'm from Viana do Castelo. Now, I am completing the 3rd year at the University of Aveiro. Experience in the development of projects, mainly in groups, in various areas of programming. Experience in the world of work, with development of a full-stack project using ReactJS, NodeJS and MySQL. I am looking for new challenges, which make me evolve both professionally and personally.

EDUCATION

Sep 2021-Current

Bachelor's degree, Computer Engineering, *University of Aveiro*

Main subjects: Introduction to software engineering; Introduction to web development; Algorithms and Data Structures; Database; Artificial intelligence; Distributed computing; Introduction to Security in Organizations; Testing and System Quality; Informatics Project

Tags: Python, Java, ReactJS, HTML, Css, JavaScript, SQL, MongoDB, Cassandra, SpringBoot, Git, Docker, Linux

PROFESSIONAL EXPERIENCE

Jul 2023-Sep 2023

Full Stack Developer, *TecTank*

I developed a web application dedicated to the monitoring of municipal and private swimming pools, in collaboration with the development team.
I was responsible for developing the integration of the front-end with the API web services, ensuring fluid communication.
I also created in the enterprise with the UX/UI designer, intuitive admin and user interfaces.
Actively contributes to the development and improvement of API web services, implementing RESTful practices to optimize data exchange.
I also worked with the SQL database, implementing CRUD (Create, Read, Update, Delete) developing optimized queries ensuring the efficiency and integrity of the database.

Tags: ReactJS, NodeJS, SQL, MongoDB, Git, Jira
